

Company Profile

Solution Providers for the
Agricultural, Food processing &
Mining Industries

Design, Manufacture & Installation of:
Grain storage silos, Feed bins, Bucket
elevators, Screw conveyors, Chain
conveyors, Walkways & Gantries,
Staircases, General Engineering &
Structures

Overview & History

Johan Cronje, owner of **Vicro Bulk**, established his first company in 1982, manufacturing only feed bins and screw conveyors for the agricultural industry. After selling the business in 1992, a great need for silos and grain handling equipment in the agricultural industry was identified and so **Vicro Bulk** was founded in 1994.

The Company's main objective is to design, manufacture and install bulk storage facilities and processing plants to suit client needs. The silos produced by the Company are used by clients which operate within various sectors in the South African Economy, as well as neighboring countries, including but not limited to, the Construction, Agriculture, Mining and Petro-chemical industries.

In addition to designing and manufacturing bespoke silos are ancillary products in the form of mixers, elevators, conveyor systems, grain cleaners, walkways and gantries. Also part of the Company's service offering is manufacturing general structures. **Vicro Bulk** has an experienced workforce of 80 (eighty) permanent employees and on-site construction personnel.

Vicro Bulk boasts both JSE listed and Global companies as its clients. The ability to attract these clients are founded upon key success factors which include, among others, the following:

- The trust gained from customers and long-run reputation of **Vicro Bulk**;
- The ability to design and manufacture silos, tanks and ancillary equipment to meet any requirement of customers;
- The high quality of the equipment manufactured;
- Low turnover of the company's experienced and skilled staff;
- The caring element of service delivery.

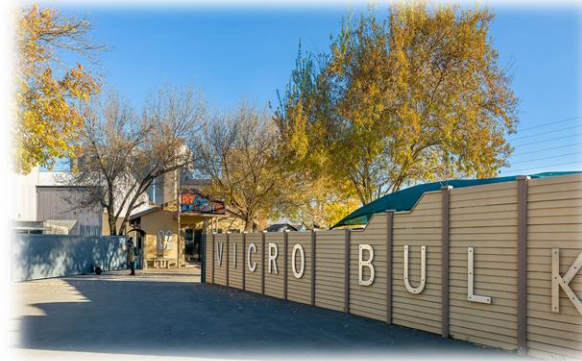

OUR WORKSHOP

Situated in Duncanville Vereeniging, we have two factories back-to-back, consisting of:

Erf 1164 & 1165 = 13 951m²

- 5600m² Enclosed factories
- 410m² Administrative offices
- 6370m² Paved drive ways & open working areas
- 400 m² Sandblast bay
- Overhead cranes – 1 x 20 Ton / 2 x 10Ton / 3 x 3Ton / 2 x 2 Ton
- 1100m² Staff quarters (canteen / shower rooms / lunch stations / rest rooms)

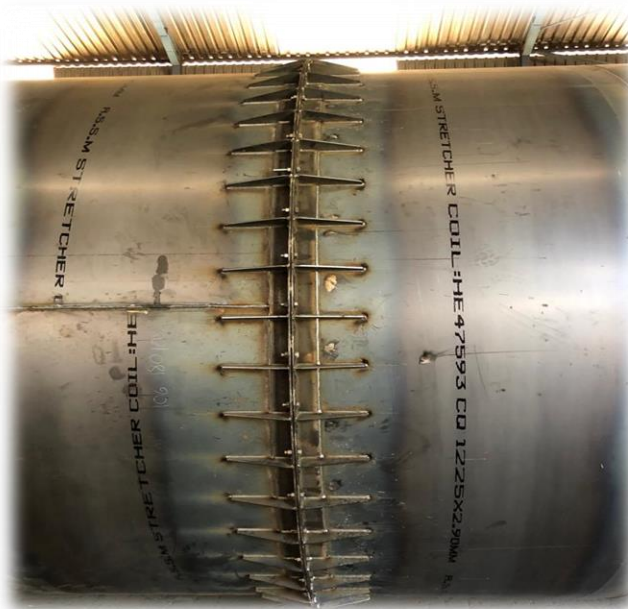

FABRICATION

Our fabrication is in accordance with clients specification, Industry standards and codes.

- Structural Fabrication & erection
- Piping according to ASME VII 31.3
- Silos for cement, silica sand, grain & feed
- Grain silo erection – up to 105Ft diameter
- Bucket Elevators (5T – 120T/hr)
- Screw-, Chain- & Belt conveyors
- Centrifugal fans
- Pulleys (min. Ø220mm – max. Ø1,5m)
- Chute's
- Gravity feed grain cleaners
- Intake hoppers with drive over grids

MICRO BULK FABRICATION

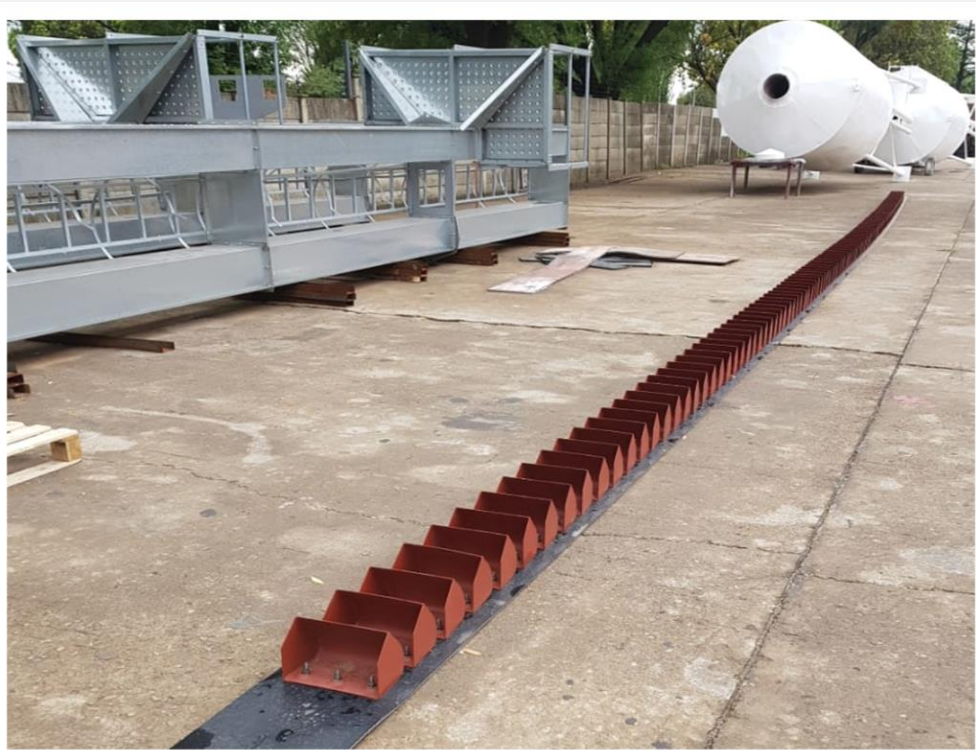

MICRO BULK FABRICATION

FABRICATION

Manufacture & Installation

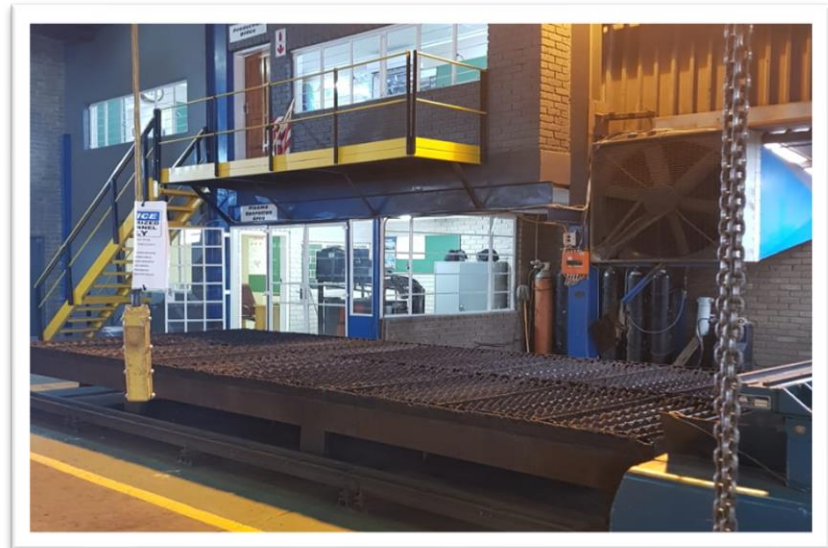

TRANSPORT

Machinery & Equipment

- Shot blast & Spray-paint bay
- Forklifts: 1 x 10T / 1 x 2.5T / 2 x 3Ton
- 1 x 12.5 ton Gallion mobile crane
- Turning Workshop
- Guillotine – 6mm thick / 3m wide
- Plasma Cutting – 3m x 6m – up to 25mm plate thickness
- Hydraulic plate Roll – up to 25mm thickness
- Fiber lazer cutting machine 12kw - 2.5mx6m
- Rolling of angle irons – 60x60x6 maximum
- Civil & Building Construction
- Fleet:
 - 2 x Hino 700 trucks with 23,5t meter crane
 - 1 x Isuzu FTR800 Flat deck with crane – 7.7m trailer
 - Tri-; Duel- & Single axle 14m flat deck trailers
 - 3 x 1Ton LDV's with 4m & 6m trailers

Machinery & Equipment

- ACL Press brake – 125Ton – 3.2 meter
- Promecam Pressbrake – 80T – 3 meter
- Durmazler Pressbrake 135T – 3,05 meter

STANDARDS & QUALITY

To achieve customer satisfaction, **VICRO BULK** has implemented a Business Management System certified to an International Standard, ISO 9001:2015.

It is hi-level management's policy that measurable objectives shall be established within all functions of the company influencing the Quality of Product, Service and Customer Satisfaction. It is a primary objective that all departmental objectives of the Business Management System be reviewed quarterly, for ongoing suitability. The objectives shall be updated in accordance with the changing needs of the company and its customers.

Management is committed to creating conditions which will allow these objectives to be positively pursued and ensure that – as management and staff – we all fully understand the requirements of our jobs, as well as provide a safe and healthy working environment that fosters teamwork. We empower and involve employees so that they all play an integral part in making the organization successful. All departments are involved in decision-making and the setting of business management objectives. We conduct reviews of our quality management system to verify its effectiveness and to ensure continual improvement.

VICRO BULK establishes healthy relationships and communication with suppliers. This is of mutual benefit in providing efficient and cost-effective service to our customers.

RECENTLY COMPLETED PROJECTS

BEESTEKRAAL VOERE - NORTH WEST
5 MT/HR Pelletizing Plant
500MT Storage Silo with daybins & 60 MT/HR chain conveyors

CRONJE BOERDERY - VREDE
6 x 2500 MT Bulk Storage Silos
120 MT/HR Bucket Elevators - Screw Conveyors - Chain conveyors
80 MT/HR Vibrating Cleaner

FOODS BOTSWANA - SEROWE BOTSWANA
2 x 5000mt Silos with Bucket elevators & chain conveyors on gantry

PHAROAH CEMENT - ALRODE

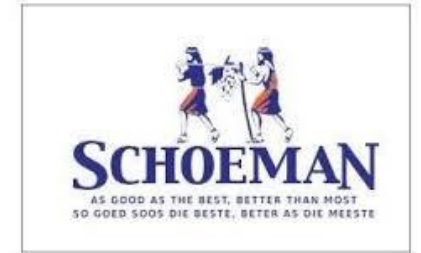

SHAMROCK MILLING - BETHLEHEM

TRUDA SNACKS - PIETERMARITZBURG
2.0 x 9.0m ABOVE GROUND INTAKE BIN WITH 60MT/HR UNLOAD SCREW CONVEYOR
60TON/HR BUCKET ELEVATOR WITH LINED DOWN PIPES
500MT GRAIN STORAGE SILO WITH AERATION & 60MT/HR UNLOAD SCREW CONVEYOR
2 x 45MT DAY STORAGE BIN WITH 15MT/HR BUCKET ELEVATOR & TROUGH SCREW CONVEYOR FEEDING A 4MT/HR MAIZE MILL PLANT
